“ Brad,

I never met your mom, Carol, but I can tell how wonderful she must have been just by knowing you. We reflect the best parts of our parents thanks to the loving way they raised us. Take comfort in your memories as you grieve. I'm so sorry for your great loss. You and your family our in the thoughts and prayers!

“I know for certain that we never lose the people we love, even to death. They continue to participate in every act, thought and decision we make. Their love leaves an indelible imprint in our memories.” —Leo Buscaglia

“ When Carol's family moved to Florida I was pretty young But I do remember many times playing with all the all the cousins on our grandparents farm. We all played on the rubber tire tube for a swing. Went down the barn hill in the wagon. Played with Winky. Helped grandma in the garden with veggies, raspberry picking, trying not to eat to many. Happy Memories will always last of family times together. RIP cousin Carol

“ I don't know where to start. I was 4 years old when Carol was born so the memories of us when we were little kids. isn't very big. I can remember things when I was five but not younger. She had beautiful red hair and was always doing something that was very lively and into things like most four year old children do. Carol lived in Texas and so we didn't see her much at all. I think the last time was when we were at dads funeral. I don't know why she chose Texas to live. But we are not sure why we live in Wisconsin. Dad and Mom had seven children, me being the oldest. we used to play school and of course I was the teacher, then Sheryl and Carol were my students along with Carla, Butch, Randy and Ricky. We saved our school papers when we got out of school in the spring and used them to read or draw on. Carol was a very good artist creating her own ideas and drawing beautiful pictures. She lived a full filled life. We will miss her as our hearts are so heavy with sadness. We will meet again soon along with Dad, Mom, Randy, Jeffery and Dan, our son. We were sending lots of love to you from our families here.

“ Carol, my sister who is only 11 months younger than me. She was so talented. She played the flute and was first chair. She could dance and became a Go Go dancer. She took my parents with her some of the time. She was an artist and drew happy fun large cartoons on the wall of our laundromat. Customers loved it. She was also smart. I started first grade and every night came home and taught Carol what I learned. When she was in first grade she knew it all and she was put in my class with me, second grade. She is visiting our mom, dad, brother and her son.
